

Dear Parent/Guardian:

The Illinois General Assembly passed laws requiring that public schools notify parent/guardians and school employees at least 48 hours prior to any pesticide applications on school property. The term "pesticide" includes insecticides, herbicides, rodenticides, and fungicides. The notification requirement extends to both indoor and outdoor pesticide applications. Excluded from the notification requirement are antimicrobial agents (such as disinfectants, sanitizers, or deodorizers), insecticide baits, and rodenticide baits.

Central Christian Church has therefore established a registry for people who wish to be notified in the event it becomes necessary to apply a pesticide on school property.

- **If you wish to be notified**, please complete the form below and submit it to Central Christian Church, 650 W. William St., Decatur, IL 62522 Attn: Andrew.
- **If you do not wish to be notified, no further action is required on your part.** An Integrated Pest Management Statement copy may be obtained in the church office.

**SUBMITTING THIS FORM IS ENTIRELY VOLUNTARY**

*Only complete this form if you want to be notified prior to pesticide application. You only need to fill out one form if you have more than one student in the same building.*
